WHO WE ARE:

MPS is an engineering firm that provides specialized installation services, Project management and design engineering for manufacturing projects.

Our clients are people who seek the expertise and experience required to successfully executing and delivering a project.

OUR BUSINESS:

MPS was founded with the objective of providing installation services and project management to our customer through outsourcing services.

We have helped our clients to develop, implement and achieve their projects within their specifications and budget proposed.

We serve industrial manufacturing, pharmaceutical, government agencies and food and beverages industries. As well to residential and commercial construction including civil and mechanical installation.

WHAT WE DO:

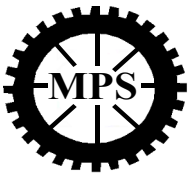

We provide the skills and expertise necessary to perform the following:

- Process Piping and Welding
 - Orbital Welding (Hygienic)
 - Heliarc Welding (GTAW)
 - Stick Welding (SMAW)
- Equipment Installation
 - Mechanical Installation
 - Rigging
- Electrical & Civil Works
- Programming/Automation
- Plant and Process Layouts
- Mechanical Design
 - P&ID and PFD's
 - Pump Sizing
 - Air Compressor Sizing
 - Ventilation & Ducts
 - Stress/Failure Analysis
- Project Management
 - Equipment Selection
 - Budgeting and Cost Control
 - Bid Packages
 - Inspection
- Value Engineering and Six Sigma

CONTACT US:

Please feel free to contact Guillermo Negron to have “MPS” analyze your project and see how we can help to improve or simplify your project installation. Call at 787-646-6539, via e-mail: guillermo@mpspr.com or visit our website www.mpspr.com.

PROJECTS PROFILE:

MECHANICAL – PIPING

- **Caguas Mechanical Contractors Inc., Caguas PR**

Project Description:

Sanitary stainless steel piping installation for processes for Tablet Press in Warner Chilcott Fajardo. Work included orbital welding, pipe hangers and piping installation.

Project Cost: \$50K

Contact Name: Eng. Gerry Torres ó 787.384.0130

- **Baxter Healthcare Corp., Aibonito PR**

Project Description:

Installation of a new air receiver tank and 60 stainless steel piping header for the New Plant Compress Air System. Work included heliarc welding for piping installation, tank rigging and equipment installation.

Project Cost: \$75K

Contact Name: Eng. Carlos Montesinos ó 787.954.8021

- **TAPI Industries, Guayama PR**

Project Description:

Levetiracetam 80MTS Production Expansion Project in the GIII Building. Work included welding for piping installation, reactor rigging and equipment installation.

Project Cost: \$500K

Contact Name: Eng. Jose Delgado ó 787.864.4545

- **TAPI Industries, Guayama PR**

Project Description:

High Purity Stainless Steel piping installation for GIII Process Water Loop. Work included orbital welding, pipe hangers and piping installation.

Project Cost: \$150K

Contact Name: Eng. Jose Delgado ó 787.864.4545

- **TAPI Industries, Guayama PR**

Project Description:

Process improvements and expansion for the GIII Clean Room Kilo Lab. Work included heliarc welding for piping installation and equipment installation.

Project Cost: \$80K

Contact Name: Eng. Jose Delgado ó 787.864.4545

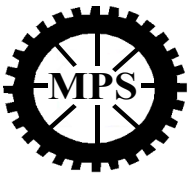

- **Shell Chemicals, Yabucoa PR**

Project Description:

Stainless Steel piping installation for new laboratory expansion. Work included orbital welding, brackets support and piping installation.

Project Cost: \$50K

Contact Name: Eng. Miguel Vega ó 787.707.0022

"Your complete source for Design, Installation and Maintenance of manufacturing and processing equipment"

MECHANICAL – Water Supply Systems & WWTP

- **Aireko Services & Installations, Caguas PR**

Project Description:

Provide labor and supervision support for the demolition and installation of a 72ö Discharge pipe for the Puerto Nuevo RWWTP Effluent Manifold Rehabilitation. Work included mechanical work, rigging support, cutting and stick (SMAW) welding.

Project Cost: \$30K

Contact Name: Eng. Carlos Ramos ó 787.485.3982

- **FHI Developers, Fajardo PR**

Project Description:

Design and installation of the Waste Water Treatment Plant for the Montesol apartment complex.

Project Cost: \$120K

Contact Name: Henry Suarez ó 787.249-7040

- **Pepsi Cola, Cidra PR**

Project Description:

Selection and installation of a Reverse Osmosis System.

Project Cost: \$1.2MM

Contact Name: Eng. Edgardo Santiago ó 787.449.1218

- **Pepsi Cola, Cidra PR**

Project Description:

Installation of a Secondary Reverse Osmosis system to process the reject water of the primary Reverse Osmosis system. Work included heliarc welding and equipment installation.

Project Cost: \$75K

Contact Name: Eng. Grabiell Cintron ó 787.739.8411

- **Essilor, Ponce PR**

Project Description:

Installation of a Reverse Osmosis system to treat and process well water. Work included welding and equipment installation.

Project Cost: \$35K

Contact Name: Eng. Juan Garciaó 787.464.8508

- **B-BRAUN Inc., Sabana Grande PR**

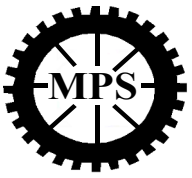

Project Description:

Waste Water Treatment Plant Demolition. Work included permitting, asbestos and lead disposal and demolition work with disposal.

Project Cost: \$200K

Contact Name: Eng. Vilma Lugo ó 787.873.4600

MANUFACTURING PROCESS SPECIALISTS

"Your complete source for Design, Installation and Maintenance of manufacturing and processing equipment"

MECHANICAL – Equipment Installation

- **TAPI Industries, Guayama PR**

Project Description:

Installation of one Chilled water chiller and one Brine chiller. Works included supply and install all pipe lines for chillers, pumps and towers using stick (SMAW) welding, chiller rigging and installation.

Project Cost: \$200K

Contact Name: Eng. Jose Delgado ó 787.864.4545

- **Baxter Healthcare Corp., Aibonito PR**

Project Description:

Installation of a new high efficiency variable speed screws chiller 550 tons. Work included rigging old and new chiller, piping modifications and insulation.

Project Cost: \$100K

Contact Name: Eng. Jose Arroyo ó 787.954.8021

- **Baxter Healthcare Corp., Aibonito PR**

Project Description:

Installation of two structural frames to install new air handling units in the roof. Work included arc welding for I-beam and structural members, structures rigging and equipment installation.

Project Cost: \$80K

Contact Name: Eng. Carlos Montesinos ó 787.954.8021

- **Advance Graphics Printing, Guaynabo PR**

Project Description:

Installation of an M-800 Press in the facilities of AGP. Work included rigging equipment, piping welding and equipment installation.

Project Cost: \$300K

Contact Name: Eng. Anibal Ramirez ó 787.310.8104

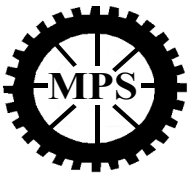

- **Pepsi Cola, Cidra PR**

Project Description:

Installation of Spiroflow aeromechanical conveyors for the Gatorade Room. Work included equipment selection, installation and demolition of existing equipment.

Project Cost: \$50K

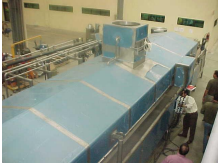

Contact Name: Eng. Luis Lora ó 787.457.7757

“Your complete source for Design, Installation and Maintenance of manufacturing and processing equipment”

- **Yuca Linda (formerly Agrifa), Isabela PR**

Project Description:

Design, selection and installation of machinery to establish a snack company.

Project Cost: \$2.5MM

Contact Name: Edgar Ramirez ó 787.553.5775

- **Pfizer, Barceloneta PR**

Project Description:

Installation of two De-alkalinizer tanks for the boiler room. Equipment includes: steel tanks, piping, pumps and valves mechanical installation.

Project Cost: \$15K

Contact Name: Josean Ramos ó 787.316.3620

- **Empresas Ortiz Brunett, Guaynabo PR**

Project Description:

Mechanical and electrical installation of machinery and structural support for the new òCantera Estrellaö aggregate site. Equipment includes: steel supports, hoppers, crushers and conveyors.

Project Cost: \$100K

Contact Name: Carlos Ortiz Vidal ó 787.720.5020

- **Frito Lay, Barceloneta PR**

Project Description:

Installation and demolition of a structural platform and vertical form fill seal machines with scales and conveyors.

Project Cost: \$750K

Contact Name: Eng. Eldwin Heres ó 787.307.8031

- **Pepsi Cola, Cidra PR**

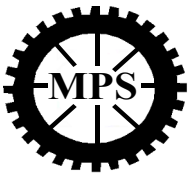

Project Description:

Design and installation of a manufacturing cell to handle powders using vacuum conveyors and a Fanuc robot for palletizing the finished product.

Project Cost: \$1.5MM

Contact Name: Eng. Edgardo Santiago ó 787.449.1218
